

DISASTER ADVANCES

The background of the cover is an aerial photograph of a multi-lane road that has been severely damaged, likely by an earthquake. The road surface is cracked and buckled, with several cars and a truck overturned or crushed. Debris is scattered across the road and surrounding areas. In the upper left, there are dark, dense trees. A large, circular inset on the left side of the cover shows a forest fire in progress, with bright orange and yellow flames consuming evergreen trees. The overall scene is one of significant destruction and environmental impact.

Vol. 16 (11), November 2023
