

## Early Publication/Fast Track

Our journals are non-paid journals and we do not charge any fees for submission or acceptance or publications of manuscripts in all our journals. Routine review takes about 60 days from date of submission without charging any payment.

Earlier we observed that many authors requested us for fast review and fast publication for some reason or other. We found that many times their reasons were not valid and they adopted false practices very often.

To avoid this, we have started charging for fast track or fast publication so that only people in need or emergency apply to us. Charging only for fast track review or publication does not make us paid journals. Ours are non-paid journals and we do not charge any fees. Since we receive a large number of manuscripts, therefore we have a long queue and publication takes 6 to 8 months in normal course without any charges.

Many times, authors feel that their manuscripts should be reviewed early or should be published earlier because of either thesis submission or thesis interview or promotion of authors or interviews of authors and so on.

	<b>Fast Track Review</b>	<b>Fast Track Publication</b>	<b>Fast Track Review and Publication</b>
<b>For Indian authors residing in India</b>	<b>Rs. 4000/-</b>	<b>Rs. 10000/-</b>	<b>Rs. 12000/-</b>
<b>For International authors</b>	<b>US \$ 400</b>	<b>US \$ 600</b>	<b>US \$ 900</b>

Fast track review does not mean acceptance of manuscript. Your manuscript may be accepted or may be rejected. On rejection there is no refund at all. Fast track review takes 30 days from date of payment and normal track review takes 60 days from date of submission of manuscripts.

Fast track publication takes 2-3 months for publication from date of acceptance of manuscript. Normal publication takes 6-8 months for publication from date of acceptance of manuscript as we have a long queue.

Paying for early review and early publication together does not guarantee for acceptance of manuscript. If your manuscript gets rejected, then we will refund Rs. 8000/- to Indian authors after deducting Rs. 4000/- for review charges (International authors will be paid US \$ 500 after deducting review charges US \$ 400 if manuscript is rejected by experts). Those authors who are always in need of fast track review, should become our fellow members by paying fellow membership only once in life time and the facility of fast track review will be a permanent feature for them.
