

Save Environment; Save Earth

WRA

AIM

- ▶ To promote research in various fields.
- ▶ To help young researchers in publication of their research papers in reputed journals of world by paying their publication fees and by guiding them.
- ▶ To provide books, chemicals, instruments etc. to needy researchers.
- ▶ To contribute towards travel grants for presenting research papers in reputed international conferences.
- ▶ To help young researchers in preparing their projects.
- ▶ To plant 50,000 trees, huge plantation project at Keshar Hillock.
- ▶ To cure poor people having various diseases through plants, flowers and vegetables.
- ▶ To promote Yoga and Meditation activities at Keshar Hillock.

Join our mission to save Environment and to save Earth

Our mission is to plant 50,000 trees in 18 months at Keshar Hillock (area 25 acres) situated at Mhow – Manpur road (old A.B. road) near KesharBardi / Jamli Village (Distance from Indore about 50 Km; distance from Mhow city 10 Km; distance from Gawli Palasia Village 7 Km). Planting the trees is the only solution to save earth and to save humanity from disasters.

Any person or any organization can plant minimum 05 or 11 or 21 or 25 or 51 or 101 or 501 trees or more in our drive by paying Rs. 1000/- per plant and we will take care of the plant. We will keep everything organic. You can check your plant on App or even on mobile any time in due course of time.

Trees offer air, water and food to all. To serve Tree means to serve Nature and thus to serve God.

1. A single mature tree can absorb carbon dioxide at a rate of 48 lbs/year and release enough oxygen back into the atmosphere to support 2 human beings.
2. The average adult, when resting, inhales and exhales about 7 or 8 liters of air per minute. That totals about 11,000 liters of air per day.
3. One tree produces nearly 260 pounds (50 Liter) of oxygen each year.
4. It takes roughly 6–8 trees per person to produce enough oxygen each year.
5. One mature tree contains 10,000 liters water in its roots.

According to one study, human activity is detrimental to tree abundance worldwide. Around 15 billion trees are cut down each year, the number of trees worldwide has dropped by 46%. It is said that one person uses wood equivalent to 7 trees in whole of his life, therefore it is moral duty of every person to plant 7 trees at least. Population of earth is 7.4 billion as per data of year 2016. If each person plants 7 trees, then our earth will have 51.8 billion new trees in about 10 years.

One acre of trees annually consumes the amount of carbon dioxide equivalent to that produced by driving an average car for 26,000 miles. That same acre of trees also produces enough oxygen for 18 people to breathe for a year.

By year 2040 there will be no drinking water in India and future generation will not be able to see clean blue sky. Like drinking water bottles, one will carry oxygen cylinders with him.

Trees provide us food, water and air. According to latest research, trees can read your mind and heart. So, if you are in stress or depression, meditate under the tree for some time and seek GOD.

एक पेड़ की कीमत

WHAT WE DO

- ❑ We publish various international E-journals in different fields and accept research papers free of cost. We publish journals in Chemistry, Environment, Biochemistry, Biotechnology, Management, Agriculture, Disasters, Education, Medical Science etc. and we will publish some more in different areas like Yoga, Sport Science, English, Quantum Computation etc. Some of our journals are indexed in SCOPUS, Chemical Abstracts, NAAS, UGC etc.
- ❑ We organize research congress in India and Abroad and publish Special Issues.
- ❑ We organized World Business and Economy Congress on February 15-17, 2019 at Indore and our chief guests were Mrs. Aishwarya Rai Bachchan, Leading Actress and Brand Ambassador, Dr. Madhavan Nair, Ex Chairman ISRO and Dr. R. Chidambaram, Ex Scientific Adviser to Prime Minister. They all appreciated our efforts for 50,000 plants.
- ❑ We promote young researchers of India because India can march ahead by research.
- ❑ We have planted 6000 trees till April 2019 at Keshar Hillock, Mhow, District Indore. Our aim is 50,000 trees to stop pollution.

SUPPORT WRA

- ❑ By donating generously for plants and environment. Rs. 1000/- per plant (Minimum 05 or 11 or 21 or 25 or 51 or 101 or more plants). Corporate sector is requested to make donations under CSR for plantation, environment and research to serve the society. All the persons are requested to make donations to save Earth. Persons can donate plants in name of their relatives and friends to keep their memories alive. We will make separate blocks for donors of 51 or more plants in name of individuals or corporate sectors.
- ❑ By becoming Fellow (Life) member FWRA. Contribute only once - Rs. 25000/-.
- ❑ By becoming Annual member MWRA to be renewed every year – Rs. 5000/-.

BANK DETAILS

1. Name: World Researchers Associations; 2. Name of the Bank: HDFC Bank; 3. Branch: INDORE - VIJAY NAGAR; 4. Account No.: 50200033286280; 5. IFSC CODE: HDFC0000404;
One can pay by cheque or by draft or by RTGS/NEFT or by online payment through credit / debit cards.

SAVE TREES

SAVE EARTH

Mission of this congress to Save Environment and to Save Earth is truly honorable and extremely commendable and so very important in current and present time world over. It gives me immense happiness to hear about all the good work that has been done by the World Researchers Associations and by each member putting in the efforts to make our world a better place. As Dr. Garg mentioned, the ambition, the hope, the mission and I am sure, you all will make it realize into a reality of planting 50,000 trees. Truly God bless on this. It will be amazing if this can happen in every corner of our country and our planet because it is so important; it is calling of our planet, our Dharti Maa..... to make this dream, this mission, this ambition, in reality. God bless and best wishes on the endeavor. I would like to also complement the work of the congress and the organization where I am giving to understand that you are also putting the guiding a lot of young researchers to make careers in research.....

....Mrs Aishwarya Rai Bachchan, Leading Actress and Brand Ambassador

I enjoyed participating in the Congress organized by WRA and listening to talks on a wide range of.....subjects. I am also very happy to learn about WRA's initiative to plant 50,000 trees; such efforts in forestry are important for mitigating climate change, apart from other benefits which forestry brings.

.....Dr. R. Chidambaram, Reputed Scientist and Ex Scientific Adviser to Prime Minister Shri Narendra Ji Modi
